Product Description

This 300TC Cotton Sateen Quilted Comforter Set combines the natural breathability of premium cotton sateen with the practical durability of polyester fill to create a bedding ensemble suitable for both upscale hotel settings and discerning residential customers. The 300-thread-count shell fabric features a distinctive sateen weave structure that produces a subtle sheen and remarkably smooth hand feel, while the diamond stitch quilting pattern adds visual texture and ensures the fill remains securely positioned within each geometric compartment. This comforter set arrives complete with matching pillow shams, offering a coordinated bedding presentation ready for immediate retail display or guest room installation.

Key Features

- **300TC Cotton Sateen Shell:** The precisely woven 300-thread-count cotton sateen fabric provides a naturally lustrous surface with a silky-smooth drape that enhances the visual elegance of the comforter while delivering the breathability and moisture absorption benefits inherent to natural cotton fibers.
- **Diamond Stitch Quilting:** An elegant diamond-pattern quilting design creates a classic hotel-style aesthetic while functionally securing the polyester fill within individual geometric pockets, preventing shifting, clumping, and uneven distribution through extended use and regular laundering.
- **Premium Polyester Hollow Fiber Fill:** The siliconized polyester hollow fiber filling provides consistent medium-density loft with excellent resilience and recovery properties, maintaining its shape and insulating performance without the weight and maintenance requirements of natural down alternatives.
- **Complete Bedding Set Package:** Each set includes one quilted comforter and two matching pillow shams in coordinated cotton sateen fabric, providing a turnkey bedding solution that eliminates the need for separate accessory sourcing and ensures a perfectly matched visual presentation.
- **Colorfast Reactive Dye Process:** All shell fabrics are processed with reactive dye technology that chemically bonds color molecules to cotton fibers at the molecular level, delivering exceptional wash fastness and resistance to fading even under commercial laundry conditions with hot water cycles.

Technical Specifications

Parameter	Specification

Available Sizes	Twin 68x90, Full 80x90, Queen 90x90, King 106x90 inches
Color Options	White, Ivory, Champagne
Season Rating	All-Season / Medium Weight

Applications

This cotton sateen comforter set is ideally positioned for mid-to-upscale hotel establishments, boutique bed and breakfast properties, serviced apartment operators, and residential consumers seeking a polished hotel-at-home bedding experience. The 300-thread-count cotton shell provides sufficient durability for commercial laundering cycles while maintaining the premium aesthetic that discerning guests expect from quality accommodation. The diamond stitch quilting pattern complements both traditional and contemporary interior design schemes, and the neutral white, ivory, and champagne color palette allows seamless integration with existing room decor without clashing. For hospitality procurement managers, the complete set packaging simplifies inventory management and ensures consistent room presentation across all guest units while reducing the administrative overhead of sourcing multiple bedding components from separate suppliers.

Packaging & Quality Assurance

Each comforter set is individually packed in a clear PVC zipper bag with reinforced handle for convenient retail display and consumer transport, with five sets per master export carton. Our manufacturing processes are certified under ISO 9001 quality management standards and all cotton fabrics carry OEKO-TEX Standard 100 certification for chemical safety. Production quality control includes thread count verification through fabric density testing, quilting stitch integrity inspection using automated vision systems, fill weight confirmation via precision digital scales, and finished dimension measurement against specification tolerances. We provide comprehensive private label services including custom woven labels, branded packaging design, bespoke color matching, and custom size configurations to support the branding strategies of hotel chains, retail brands, and e-commerce sellers.
