Product Description

The coral fleece winter comforter is built for maximum coziness in the coldest months. A high-density 300gsm coral fleece face provides an exceptionally soft, fluffy surface with fine fibers that feel warm to the touch, while a 250gsm brushed fleece back adds another layer of comfort. Between the two faces, a 300gsm polyester fill delivers strong insulation, trapping warmth effectively on cold nights. Quilted construction with rounded corners keeps the fill evenly distributed and gives the comforter a rounded, cushioned silhouette that reads as plush and inviting in photography and on the shelf.

Key Features

- **Ultra Plush Coral Fleece:** A dense 300gsm coral fleece face offers outstanding softness and warmth, creating the cozy tactile experience customers look for in winter bedding.
- **Extreme Winter Warmth:** The heavy fleece faces combined with a 300gsm fill deliver strong thermal retention for the coldest bedrooms and winter holiday assortments.
- **Dual Fleece Sides:** A brushed fleece reverse complements the coral fleece front, providing two soft surfaces and extra insulation against drafts.
- **Rounded Cushioned Shape:** Rounded corners and full quilting give the comforter a padded, plump silhouette that enhances its perceived value and comfort.
- **Resists Shedding and Pilling:** Carefully finished fleece resists shedding and pilling, keeping the surface smooth and attractive after repeated use and washing.
- **Warm Color Options:** A range of cozy colorways supports seasonal merchandising and coordinated winter bedding displays for retailers.

Care Instruction	Machine Washable, Tumble Dry Low

Applications

This winter comforter targets cold-season and gift markets in North America, Northern Europe, Russia, and Northeast Asia. It suits master bedrooms, guest rooms, dormitories, and cabins, and appeals to families seeking an affordable but very warm bedding layer. The plush look also fits holiday and cozy-themed retail campaigns, making it a strong seasonal hero product. Retailers can pair it with coral fleece throws and warm socks or loungewear to build a cozy winter gifting collection that lifts average order value during peak season.

Packaging & Quality Assurance

Each comforter is folded, rolled, and packed in a poly bag with a printed insert card before being packed into export-grade corrugated cartons. Vacuum compression is available to streamline freight for large orders. Quality control covers fleece weight, color fastness, fill distribution, and stitching strength, with a final inspection before dispatch. Custom hangtags, printed sleeves, and retail color boxes are available for OEM and private-label buyers, and pre-shipment samples are provided for buyer sign-off on color and plush feel.
